## Item 4 – Advisory Services

---

### A. Firm Information

Ashland Heights Capital Management, LLC d/b/a Ashland Heights Investments (“Ashland” or the “Advisor”) is a registered investment advisor located in the State of Texas, which is organized as a Limited Liability Company (LLC) under the laws of the State of Texas. Ashland was founded in April 2016, and is owned and operated by Eric M. Robken (Managing Director). This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by Ashland.

### B. Advisory Services Offered

Ashland offers investment advisory services to individuals, high net worth individuals, trusts and estates in the State of Texas and other states (each referred to as a “Client”).

#### Wealth Management Services

Ashland may provide Clients with wealth management services, which generally includes a broad range of comprehensive financial planning and consulting services as well as discretionary management of investment portfolios. These services are described below.

#### Investment Management Services

Ashland provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and related advisory services. Ashland works closely with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio strategy. Ashland will then construct a portfolio, consisting of low-cost, diversified mutual funds and/or exchange-traded funds (“ETFs”) to achieve the Client’s investment goals. The Advisor may also utilize individual stocks, bonds or Real Estate Investment Trusts (“REITs”) to meet the needs of its Clients. The Advisor may retain certain types of investments based on a Client’s legacy portfolio construction.

Ashland’s investment strategy[ies] is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. Ashland will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

Ashland evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. Ashland may recommend, on occasion, redistributing investment allocations to diversify the portfolio. Ashland may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. Ashland may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

At no time will Ashland accept or maintain custody of a Client’s funds or securities, except for authorized deduction of the Advisor’s fees. All Client assets will be managed within their designated brokerage account or pension account, pursuant to the Client investment advisory agreement. Please see Item 12.

#### Financial Planning Services

Ashland will typically provide a variety of financial planning and consulting services to Clients, pursuant to a written financial planning agreement. Services are offered in several areas of a Client’s financial situation, depending on their goals, objectives and financial situation.

Generally, such financial planning services involve preparing a formal financial plan or rendering a specific financial consultation based on the Client's financial goals and objectives. This planning or consulting may encompass one or more areas of need, including but not limited to, investment planning, retirement planning, personal savings, education savings and other areas of a Client's financial situation.

A financial plan developed for or financial consultation rendered to the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence or alter retirement savings, establish education savings and/or charitable giving programs. Ashland may also refer Clients to an accountant, attorney or other specialist, as appropriate for their unique situation. For certain financial planning engagements, the Advisor will provide a written summary of Client's financial situation, observations, and recommendations. For consulting or ad-hoc engagements, the Advisor may not provide a written summary. Plans or consultations are typically completed within six months of contract date, assuming all information and documents requested are provided promptly.

Financial planning and consulting recommendations may pose a conflict between the interests of the Advisor and the interests of the Client. For example, a recommendation to engage the Advisor for investment management services or to increase the level of investment assets with the Advisor would pose a conflict, as it would increase the advisory fees paid to the Advisor. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to effect the transaction through the Advisor.

### **C. Client Account Management**

Prior to engaging Ashland to provide investment advisory services, each Client is required to enter into one or more agreements with the Advisor that defines the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – Ashland, in connection with the Client, may develop a statement that summarizes the Client's investment goals and objectives along with the broad strategy[ies] to be employed to meet the objectives.
- Asset Allocation – Ashland will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.
- Portfolio Construction – Ashland will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – Ashland will provide investment management and ongoing oversight of the Client's relationship's investment portfolio.

### **D. Wrap Fee Programs**

Ashland does not manage or place Client assets into a wrap fee program. Investment management services are provided directly by Ashland.

### **E. Assets Under Management**

Ashland is a newly established advisor with no assets under management. Assets under management shall be reported following the Advisor's December 31, 2016 fiscal year end. Clients may request more current information at any time by contacting the Advisor.

## Item 5 – Fees and Compensation

---

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client engaging the Advisor for services described herein shall be required to enter into a written agreement with the Advisor.

### A. Fees for Advisory Services

#### Investment Management Services

Investment advisory fees are paid quarterly in arrears pursuant to the terms of the investment advisory agreement. Investment advisory fees are based on the market value of assets under management at the end of each calendar quarter. Investment advisory fees are based on the following schedule:

Assets Under Management (\$)	Annual Rate (%)*
Up to \$100,000	2.00%
\$100,001 to \$500,000	1.50%
\$500,001 to Over	1.00%

\* Minimum annual fee of \$200.

Fees may vary from the above fee schedule depending on the nature and complexity of each Client's circumstances, or with the inclusion of financial planning services, which is offered on an hourly or fixed financial planning fee basis, as described below. An estimate for the total costs will be determined prior to establishing the advisory relationship. The combined fee for investment management and financial planning services would constitute the wealth management fee pursuant to investment advisory and financial planning agreement.

Investment advisory fees in the first quarter of service are prorated from the inception date of the account[s] to the end of the first quarter. Fees may be negotiable at the discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by Ashland will be independently valued by the designated Custodian. Ashland will not have the authority or responsibility to value portfolio securities.

#### Financial Planning Services

Ashland offers financial planning services on an hourly basis ranging from \$200 to \$350 per hour. Fees may be negotiable based on the nature and complexity of the services to be provided and the overall relationship with the Advisor. An estimate for total hours and overall costs will be provided to the Client prior to engaging for these services.

The Advisor's fee is exclusive of, and in addition to, brokerage fees, transaction fees, and other related costs and expenses, which may be incurred by the Client. However, the Advisor shall not receive any portion of these commissions, fees, and costs.

#### Wealth Management Services

For Clients engaged for comprehensive wealth management services, the Client will be charged a single combined fee for investment management and planning services.

### B. Fee Billing

#### Investment Management Services

Investment advisory fees are calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the respective quarter end date. The amount due is calculated by applying the quarterly rate (annual rate divided by 4) to the total assets under management with Ashland at the end of each quarter. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. In addition, the Advisor will provide the Client a report itemizing the fee, including the

calculation period covered by the fee, the account value and the methodology used to calculate the fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting Ashland to be paid directly from their account[s] held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

#### Financial Planning Services

Financial planning fees are invoiced by the Advisor and are due upon completion of the agreed upon deliverable[s].

### **C. Other Fees and Expenses**

Clients may incur certain fees or charges imposed by third parties, other than Ashland, in connection with investments made on behalf of the Client's account[s]. The Client is responsible for all custodial and securities execution fees charged by the custodian and executing broker-dealer. The Investment Advisory Fee charged by Ashland is separate and distinct from these custodian and execution fees.

In addition, all fees paid to Ashland for investment advisory services are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client could invest in these products directly, without the services of Ashland, but would not receive the services provided by Ashland which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by Ashland to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

### **D. Advance Payment of Fees and Termination**

#### Investment Management Services

Ashland is compensated for its services at the end of the quarter after investment advisory services are rendered. Either party may terminate the investment advisory agreement by providing advance written notice to the other party. The Client may terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Client shall be responsible for investment advisory fees up to and including the effective date of termination. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior approval.

#### Financial Planning Services

Ashland is compensated for its services upon completion of the engagement deliverable[s]. Either party may terminate the financial planning agreement by providing advance written notice to the other party. The Client may terminate the financial planning agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Client shall be billed for actual hours logged on the planning project times the contractual hourly rate. The Advisor will refund any unearned, prepaid planning fees from the effective date of termination. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior approval.

### **E. Compensation for Sales of Securities**

Ashland does not buy or sell securities and does not receive any compensation for securities transactions in any Client account, other than the investment advisory fees noted above.

## **Item 6 – Performance-Based Fees and Side-By-Side Management**

---

Ashland does not charge performance-based fees for its investment advisory services. The fees charged by Ashland are as described in “Item 5 – Fees and Compensation” above and are not based upon the capital appreciation of the funds or securities held by any Client.

Ashland does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

## **Item 7 – Types of Clients**

---

Ashland offers investment advisory services to individuals, high net worth individuals, trusts and estates in State of Texas and other states. The percentage of each type of Client is available on Ashland’s Form ADV Part 1A. These percentages may change over time and are updated at least annually by the Advisor. Ashland generally requires a minimum account size for establishing a relationship of \$5,000 to effectively implement its investment process. The Advisor requires a minimum annual fee of \$200, which may be waived at the sole discretion of the Advisor.

## **Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss**

---

### **A. Methods of Analysis**

Ashland primarily employs a fundamental method of analysis in developing investment strategies for its Clients. Research and analysis from Ashland is derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor’s review process are included below in “Item 13 – Review of Accounts”.

As noted above, Ashland generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. Ashland will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, Ashland may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

### **B. Risk of Loss**

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Ashland will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor’s review process are included below in “Item 13 – Review of Accounts”.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with the potential speculative components of the Advisor's strategy:

#### Real Estate Investment Trusts ("REITs")

Investing in Real Estate Investment Trusts ("REITs") involves certain distinct risks in addition to those risks associated with investing in the real estate industry in general. Equity REITs may be affected by changes in the value of the underlying property owned by the REITs, while mortgage REITs may be affected by the quality of credit extended. REITs are subject to heavy cash flow dependency, default by borrowers and self-liquidation. REITs, especially mortgage REITs, are also subject to interest rate risk (i.e., as interest rates rise, the value of the REIT may decline).

**Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.**

### **Item 9 – Disciplinary Information**

---

**There are no legal, regulatory or disciplinary events involving Ashland or any of its management persons.** Ashland values the trust you place in us. As we advise all Clients, we encourage you to perform the requisite due diligence on any advisor or service provider with whom you partner. Our backgrounds are on the Investment Adviser Public Disclosure website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov) by searching by our firm name or our CRD # **284375**.

### **Item 10 – Other Financial Industry Activities and Affiliations**

---

The sole business of Ashland is to provide investment advisory services to its Clients. Neither Ashland nor its advisory personnel are involved in other financial business endeavors. Ashland does not maintain any affiliations with other firms, other than contracted service providers to assist with the servicing of its Client's accounts

### **Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

---

#### **A. Code of Ethics**

Ashland has implemented a Code of Ethics (the "Code") that defines our fiduciary commitment to each Client. Code of Ethics applies solely to Mr. Robken, as Ashland is a single person firm. The Code was developed to provide general ethical guidelines and specific instructions regarding our duties to you, our Client. Ashland and Mr. Robken owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of Ashland's CCO to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of our Code, please contact us at (713) 540-6398.

#### **B. Personal Trading with Material Interest**

Ashland allows the purchase or sale of the same securities that may be recommended to and purchased on behalf of Clients. Ashland does not act as principal in any transactions. In addition, the Advisor does not act as

the general partner of a fund, or advise an investment company. Ashland does not have a material interest in any securities traded in Client accounts.

### **C. Personal Trading in Same Securities as Clients**

Ashland allows the purchase or sale of the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities we recommend (purchase or sell) to you presents a conflict of interest that, as fiduciaries, we must disclose to you and mitigate through policies and procedures. As noted above, we have adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Mr. Robken may have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can potentially be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by Ashland by conducting a coordinated review by the CCO of personal accounts and the accounts of the Clients. We have also adopted written policies and procedures to detect the misuse of material, non-public information.

### **D. Personal Trading at Same Time as Client**

While Ashland allows our Supervised Persons to purchase or sell the same securities/OR allows the purchase or sale of the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. **At no time will Ashland, or Mr. Robken, transact in any security to the detriment of any Client.**

## **Item 12 – Brokerage Practices**

---

### **A. Recommendation of Custodian[s]**

Ashland does not have discretionary authority to select the broker-dealer/custodian for custodial and execution services. The Client will select the broker-dealer or custodian (herein the "Custodian") to safeguard Client assets and authorize Ashland to direct trades to this Custodian as agreed in the investment advisory agreement. Further, Ashland does not have the discretionary authority to negotiate commissions on behalf of our Clients on a trade-by-trade basis.

Where Ashland does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients for execution and/or custodial services. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost associated with using a broker not recommended by Ashland.

Ashland may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and location of the Custodian's offices.

Ashland participates in the institutional advisor program (the "Program") offered by Interactive Brokers LLC ("Interactive Brokers"), an unaffiliated SEC-registered broker-dealer and FINRA member. Interactive Brokers offers to independent investment advisors services, which include custody of securities, trade execution, clearance and settlement of transactions. The Advisor receives some benefits from Interactive Brokers through its participation in the Program that are not available to direct retail investors. As a result, there is a conflict of interest whereby the Advisor has an incentive to recommend Interactive Brokers (See Item 14 below).

Following are additional details regarding the brokerage practices of the Advisor:

**1. Soft Dollars** - Soft dollars are revenue programs offered by broker-dealers whereby an advisor enters into an agreement to place security trades with the broker in exchange for research and other services. **Ashland may receive research and related economic benefits from Interactive Brokers as allowed by the Section 28(e) safe harbor and detailed in Item 14 below.**

<http://www.ashlandinvest.com>

**2. Brokerage Referrals** - Ashland does not receive any compensation from any third party in connection with the recommendation for establishing a brokerage account.

**3. Directed Brokerage** - All Clients are serviced on a “directed brokerage basis”, where Ashland will place trades within the established account[s] at the custodian designated by the Client. Further, all Client accounts are traded within their respective brokerage account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor’s own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client’s account[s]). In selecting the Custodian, Ashland will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the designated Custodian.

#### **B. Aggregating and Allocating Trades**

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the broker. Ashland will execute its transactions through an unaffiliated broker-dealer selected by the Client. Ashland may aggregate orders in a block trade or trades when securities are purchased or sold through the same broker-dealer for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Client accounts.

### **Item 13 – Review of Accounts**

---

#### **A. Frequency of Reviews**

Securities in Client accounts are monitored on a regular and continuous basis by Ashland. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

#### **B. Causes for Reviews**

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client’s request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client’s financial situation, and/or large deposits or withdrawals in the Client’s account. The Client is encouraged to notify Ashland if changes occur in the Client’s personal financial situation that might adversely affect the Client’s investment plan. Additional reviews may be triggered by material market, economic or political events.

#### **C. Review Reports**

The Client will receive brokerage statements no less than quarterly from the trustee or Custodian. These brokerage statements are sent directly from the Custodian to the Client. investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving the Advisor participants; the ability to have advisory fees deducted directly from Client accounts; and discounts on research, technology, and related services provided to the Advisor by third party vendors. Some of the products and services made available by Interactive Brokers through the program may benefit the Advisor but may not benefit its Client accounts. These products or services may assist the Advisor in managing and administering Client accounts, including accounts not maintained at Interactive Brokers. The benefits received by the Advisor through participation in the program do not depend on the amount of brokerage transactions directed to Interactive Brokers. As part of its fiduciary duties to Clients, Ashland endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Ashland or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of Interactive Brokers for custody and brokerage services.

#### **B. Client Referrals from Solicitors**

Ashland does not engage paid solicitors for Client referrals.

#### **Item 15 – Custody**

---

Ashland does not accept or maintain custody of any Client accounts, except for the authorized deduction of the Advisor's fees. All Clients must place their assets with a qualified custodian. Clients are required to select their own custodian to retain their funds and securities and direct Ashland to utilize that custodian for the Client's security transactions. Clients should review statements provided by the account custodian and compare to any reports provided by Ashland to ensure accuracy, as the custodian does not perform this review. For more information about custodians and brokerage practices, see "Item 12 - Brokerage Practices".

#### **Item 16 – Investment Discretion**

---

Ashland generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by Ashland. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by Ashland will be in accordance with each Client's investment objectives and goals.

#### **Item 17 – Voting Client Securities**

---

Ashland does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

#### **Item 18 – Financial Information**

---

Neither Ashland, nor its management, have any adverse financial situations that would reasonably impair the ability of Ashland to meet all obligations to its Clients. Neither Ashland, nor any of its advisory persons, has been subject to a bankruptcy or financial compromise. Ashland is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect fees of \$500 or more for services to be performed six months or more in advance.
